

PROGRAM CALENDAR 2026 - COHORT 9

The program is designed as a flexible cohort-based learning experience and is divided into two parts. A calendar with specific start and end dates is provided for each part.

While faculty can progress through the courses at their own pace, they are expected to complete both the content courses and capstone projects within the designated timeframe for each part. Please note that if the courses are not completed within the assigned date range for each part, course will be blocked, all progress will be lost and participants will need to restart from the beginning if they wish to be re-enrolled. Enrollment in Part 2 is automatic for those who successfully complete Part 1.

TESOL Certificate, Part 1: Teach English Now!

Foundational Principles	Theories of Second Language Acquisition	Lesson Design and Assessment	Capstone Project 1
-------------------------	---	------------------------------	--------------------
